Choose from several top rail styles

AGS Stainless works directly with commercial and residential customers to ensure accurate dimensions and final fit. Clearview® railing systems are laser cut then welded and finished by hand.

RAINIER

Cable Railing

- Low profile 1/8" cable
- Choose from an array of fitting options
- Factory prepared cable/fitting assemblies available for quick installation

GLACIER

Glass Railing

- Clamps accommodate thicknesses up to 1/2"
- Can serve as a windbreak
- Works with any panel material

OLYMPUS

Horizontal Bar Railing

- Sleek, modern design
- Infill bars are cut to length
- Great option where cable is not viable
