1. Top rail not shown for clarity.
NOTES:

1. **Top Rail** should be selected so that all governing code requirements are satisfied. These include shape, strength, and railing height.

2. **Deck Structure** can vary greatly. It is the responsibility of the customer to verify that the supporting structure is adequate to meet the load requirements of the governing building code(s). **AGS Stainless Inc.** recommends consulting a design or construction professional to address these issues.
NOTE:
